World-Class Communications Anywhere in the World™

SeaAccess Communications™ is designed specifically for the communication requirements of commercial maritime vessels such as bulk carriers, tankers, cargo vessels, container ships and specialty vessels. Different service options are available depending on whether vessels require global or regional service.

## ANTENNA APPLICATIONS

### C-Band Service

Stabilized 2.4M antenna deployed for vessels requiring global coverage to support transoceanic routes.

### Ku-Band Service

Stabilized 1.0M antenna deployed for vessels requiring regional coverage to support coastal or regional routes.

## CAPROCK ADVANTAGES
